(54) **SHAPE-STABLE SCARF AND METHOD FOR PRODUCING SCARF**

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a shape-stable scarf, and to provide a method for producing the scarf.

SOLUTION: This shape-stable scarf is applied with a deformable wire to the peripheral edge of a scarf, whereby the scarf can be used in a scarf fabric-

stretched state and in a stabilized shape state. After used, the scarf is returned to the original shape, and can thereby repeatedly be used in various shapes.
